**Jessica Adsit, MS, CGC is Presented the 2025
ACMG Foundation Genetic Counselor Best Abstract Award**

BETHESDA, MD – March 19, 2025 | Jessica Adsit, MS, CGC is the 2025 recipient of the **ACMG Foundation Genetic Counselor Best Abstract Award**. The ACMG Foundation for Genetic and Genomic Medicine presented Ms. Adsit this award for her platform presentation, “Next Generation Sequencing in Blastocyst Stage Embryos: Results of over 41,000 Trophectoderm Biopsy Samples,” at the 2025 ACMG Annual Clinical Genetics Meeting in Los Angeles, CA.

Jessica Adsit, MS, CGC is a board-certified genetic counselor with 16 years of clinical experience. She works as a Manager of GC Services at Natera, Inc., specializing in preimplantation genetic testing and miscarriage testing. Jessica earned her master’s degree in genetic counseling from the University of Colorado, Anschutz Medical Campus. She began her career working in clinical research in pediatric skeletal dysplasia and inherited metabolic disease clinics. She then spent several years as a prenatal genetic counselor in a maternal fetal medicine clinic before joining Natera in 2015.

Ms. Adsit said, “Thank you so much to the ACMG Foundation for recognizing the work of myself and my colleagues. I am especially honored to receive an award that highlights the various contributions that genetic counselors make to research and clinical care.”

The ACMG Foundation’s Genetic Counselor Best Abstract Award celebrates the contributions and accomplishments of licensed genetic counselors by presenting a cash prize to the genetic counselor judged as having the best abstract at ACMG’s Annual Genetics Meeting. Any genetic counselor may apply for consideration by checking the appropriate box on their abstract submission form.

Congratulations to Jessica Adsit, MS, CGC on receiving this important award specifically for genetic counselors. Her work highlights the importance of the role of genetic counselors in the field of genomic medicine. Her work underscores the power of data in the field of preimplantation genetic testing as this field expands,” said Nancy J. Mendelsohn, MD, FACMG, president of the ACMG Foundation.

Better Health Through Genetics™

About the ACMG Foundation for Genetic and Genomic Medicine

The ACMG Foundation for Genetic and Genomic Medicine, a 501(c)(3) nonprofit organization, is a community of supporters and contributors who understand the importance of medical genetics and genomics in healthcare. Established in 1992, the ACMG Foundation supports the American College of Medical Genetics and Genomics (ACMG) mission to “translate genes into health.” Through its work, the ACMG Foundation fosters charitable giving, promotes training opportunities to attract future medical geneticists and genetic counselors to the field, shares information about medical genetics and genomics, and sponsors important research. To learn more and support the ACMG Foundation mission to create “Better Health through Genetics” visit acmgfoundation.org.
